11:02am commencement

Christopher Morgan gave us brief silica update from Fed OSHA – silica mandates are going to go away in the short term. Gerry will have more for us later in meeting during Cal OSHA update.

Electronic recordkeeping standards will remain

Gerry made a motion to approve minutes from last meeting

Lauren 2nd motion to approve

Gerry does Cal OSHA updates

Repeat violation definition updated to include subset violations

OSHA now doing it by jobsite not but by company

Use the evidence grid for your staff

WCIRB is enforcing the first aid claim reporting

Call On Site Health and Safety for incidents so that you don't have to report first aid

Chris Morgan suggested low deductible insurance program

Field Enforcement Inspectors - lists available positions so you can check coverage of new staff in your area

March – Walsh-Shea Corridor project visit

Steel toe boots, gloves, hard hats, clear glasses, vest

Please send articles to Gerry for ECA magazine

Continue to need articles for newsletter – send to John?

Presentation: Chris Morgan – Griffith Co./Safety Mojo

Take out Best Industry Practices as a policy and use it internally

Some of the features of Safety Mojo

Instant electronic data is crucial for recordkeeping

Clinic listing for each job location

Safety, HR and QC

Coming soon: High Heat Alerts -Track temperature at specific locations and sends alerts

Users are paid accounts, viewers are free accounts

Language translations available

Many various forms available and custom forms easily created

\$10 per user per month, no set up fee for ECA

\$2,500 corporate license per year

You can try it out and when you are satisfied with the set up you begin paying (to certain extent)

Chris ended his presentation at 12:35pm

Elizabeth Torres from United Rentals Trench Safety started her presentation at 12:36pm

She discussed United Academy – unitedacademy.ur.com

Training of all kinds for your staff – forklift, confined space, competent person

There's an app as well

ECA members get 20% off training

Open discussion related to questions on the Safety Mojo program

Meeting adjourned at 12:52pm
