Tour Conducted By: RW Carpenter

Attendees:

Jeremy Saum

William Guntner

Sarah Stevens

Lori Olivas

Jordan Latimer

David Frelow

Danielle Willis

Kengo Takahashi

Kristion Grbavac

The tour was very interesting for the participating members. The group was able to see the entire TBM machine as was completely inside the MLK Station setting up to begin driving the final tunnel.

R.W. Carpenter was a tour guide and did an excellent job taking us on a tour of the Tunnel Boring Machine including being able to access the trailing gear and the operators cab. I think everyone really enjoyed the tour. (Jeremy Saum)
